ABOUT ME

I am a Frontend Developer with 2 years of experience in designing and developing dynamic and responsive user interfaces. My expertise lies in using modern technologies such as Angular and React, with which I have built efficient, scalable, and user-centered web applications. Throughout my career, I have collaborated with multidisciplinary teams to implement solutions that meet quality standards and client needs. I am passionate about continuous learning and staying up-to-date with the latest trends in frontend development, as well as contributing innovative ideas that add value to projects.
